For sale is a cultivated and well-maintained olive grove covering an area of 1,597 m² in old Červar, located just 300 meters from the sea.

The property is planted with centuries-old olive trees of the indigenous Istrian variety, Rošinjola, which are over 200 years old, along with a few Lećino trees that serve for pollination.

The olives have not been treated with chemicals, and each year they yield an exceptionally rich harvest, contributing to the production of extra high-quality olive oil.
