Price	1.200.000 €
--------------	--------------------

A house is for sale that will be situated on a plot of land measuring 1,591 m², surrounded by olive groves and greenery, in a quiet location approximately 15 minutes' drive (about 12 km) from the sea and 4 km from the nearest town with necessary amenities.

The house will have around 200 m² of living space distributed over a basement, ground floor, and first floor. On the ground floor, there will be a spacious kitchen with a dining area, a living room with large glass walls leading to a terrace and garden, one bedroom with an en-suite bathroom, a guest toilet, a technical room, and a storage area.

The garden is planned to feature a 40 m² swimming pool with a sunbathing area and a covered summer kitchen. On the first floor, there will be three bedrooms, each with its own bathroom. Thanks to the large glass surfaces, the house will be filled with natural light and open to the surrounding nature.

CONCEPT REAL ESTATE

Heating will be provided through a heat pump with water underfloor heating, and additional comfort will be ensured by air conditioning units for heating and cooling. Pool heating preparations will be made (excluding the actual device), and water disinfection will operate on the principle of electrolysis. A satellite and IP TV system is planned, along with complete outdoor lighting, aluminum joinery, an automated remote-controlled gate, and video surveillance with smartphone management capabilities.

The land will be enclosed with a concrete parapet wall and fencing, alongside which a hedge (Photinia) will be planted. A lawn with automatic irrigation, including a timer and rain sensors, is also planned.

The house will be sold fully furnished, with furniture of Italian design as shown in 3D renderings, and there is an option to negotiate the purchase without furniture. The completion of the works is scheduled for mid-July 2025.

The seller is a legal entity. VAT is not included in the stated price.
