We are selling building land in an excellent location in Tara, just 200 meters from the center of the village and 3 km from the sea. The land comes with a valid building permit for the construction of a building with a total of 12 apartments.

The building is designed to consist of five floors. On the ground floor, as well as the first and second floors, there are three apartments each. The third floor is planned to have one single-story apartment and two duplex apartments that span the third and fourth floors. Some parking spaces are planned outdoors, while others will be included within the garage that is part of the project. Higher floors will offer a view of the sea.

Infrastructure, including water, electricity, and sewage, is available next to the land.
